SALT AND PEPPER MILLS

Peugeot's history begins in the 19th century with the manufacturing of items such as pepper and coffee grinders. More than 160 years later, Peugeot grinders are still manufactured in France and continue setting the standard in the kitchens of the greatest chefs the world over. The Peugeot mechanism has a **lifetime limited guarantee** and is available in a multitude of shapes, sizes and colours in different wood and acrylic finishes. Settle only for the best – the pinnacle in style, tradition, reliability and quality.

macFAB

PLACEMATS

The hospitality industry continues to turn to macFAB for innovative and ground breaking products, which help reduce both energy and laundry costs while combining sophisticated textures and finishes with durability and ease of maintenance.

macFAB tablemats are made from spun polyester yarn coated with waterproof PVC to create a beautiful, highly functional item for the hospitality industry. It is stain resistant, ultra strong and easy to clean. Mats are suitable for both indoor and outdoor use, as the material is UV protected for life.

CLEANING AND MAINTENANCE OF CROCKERY

DETERGENTS: Choosing the correct detergent is important. High alkaline content will eventually damage the glaze surface. Always follow the manufacturer's instructions and do not use more than the recommended quantities.

TEMPERATURE: A wash temperature of 60°C is generally optimal for achieving the correct balance between ensuring the effective removal of food particles and maximizing the longevity of the glaze.

DISHWASHERS: Avoid any vibration of plates against each other through proper loading and through the use of plastic coated racks and baskets. Ensure that the manufacturer's instructions are followed. Wash cutlery in separate baskets to prevent metal markings on the crockery.

HANDLING: Do not use metal utensils, scrapers, abrasive pads and powders or bleach for removing food particles. Only borax or gentle, non-abrasive household cleaners should be used to remove stains. Metal markings can be avoided by placing tableware on plastic or rubber mats.

ROTATION: Rotating the tableware in use promotes even wear and tear. Ensure that there is enough stock in operation to prevent excessive use and premature deterioration.

MICROWAVES: Ceramic tableware with metallic decorations such as gold or silver are not suitable for microwave ovens.

THERMAL SHOCK: Ceramic tableware is not designed to withstand excessive thermal shock conditions e.g. from the freezer to the hot oven. Do not expose tableware to a naked flame or heated electric element.

CLEANING AND MAINTENANCE OF GLASSWARE

CLEANING: Glassware should be cleaned immediately after use to avoid stubborn residues. Wash glassware in hot water and rinse with cold water. Crystal glass should be washed in lukewarm water. Scrub glassware thoroughly with a brush ensuring that all surfaces are covered. Do not use any harsh cleaning utensils such as a steel wool pad to wash glassware as this will cause scratches.

DETERGENTS: For stubborn stains, use a mild detergent only. Always follow the manufacturer's instructions and do not use more than the recommended quantities. After using a detergent, ensure that glassware is rinsed thoroughly to avoid any detergent residues being left on the glass.

DISHWASHERS: Glassware can be washed in the dishwasher. However, take care not to wash glasses with very delicate long stems in the dishwasher as the possibility exists that these may break.

ROTATION: Avoid using scratched, cracked or chipped glasses.

STACKING: Avoid stacking glassware unless it is specifically identified as stackable. For best results store glasses in appropriate crates.

THERMAL SHOCK: Do not expose glassware to an open element or electric plate and do not place it in the oven. Normal glass can withstand temperature changes of 42°C, and tempered glass can withstand temperature changes of 130°C.

MICROWAVES: Never allow glassware to be placed inside a microwave oven.

CLEANING AND MAINTENANCE OF CUTLERY

CLEANING: Wash cutlery in hot soapy water as soon as possible after use. Rinse immediately with hot water and wipe cutlery with a dry, clean cloth immediately. Never leave dirty cutlery to soak and never leave cutlery damp, especially 18/0 stainless steel grade.

DETERGENTS: Use only pH neutral or slightly alkaline detergents. Don't use products containing hypochlorides (bleach) or silver dip. Always follow the manufacturer's instructions and do not use more than the recommended quantities.

DISHWASHERS: Do not mix stainless steel or silver plate in the same load. Ensure that the manufacturer's instructions are followed and do not allow cutlery to stand in the dishwasher after the cycle is completed. Cutlery must be dried with a clean cloth.

POLISHING: Stainless steel cutlery will perform better if it is polished from time to time with a recommended stainless steel polish.

CLEANING AND MAINTENANCE OF PLACEMATS

CLEANING: Placemats are easily cleaned with soap and water. Should a stubborn stain occur, the woven polyvinyl can withstand gentle rubbing with hot soapy water or a bleach-based detergent.

DISHWASHERS: Do not put placemats into the dishwasher.

SANITIZING: A high temperature sanitizer can be used once a week to ensure that the placemats remain hygienic. This product cannot be ironed since it is made of vinyl.

STORAGE: Store placemats flat or neatly rolled up. Do not allow them to be folded or allow them to crease.

Our tableware ranges surpass the expectations of the hospitality industry, providing our clients with handpicked, world class items on a competitive basis and the assurance created by extensive investment in inventory. This guarantees continuity of supply and professional service levels. We meet the needs of our customers by providing them with complete table top solutions: crockery, cutlery, glassware and accessories. We also ensure that our product ranges are suitable for every type of hospitality environment, from high volume franchise operations to Five star establishments. We proudly represent a number of world famous brands exclusively within the hospitality industry. Our brands include Churchill, Luzerne, Rosenthal, Peugeot, Pintinox, Sola, Arocroc, Chef & Sommelier as well as our own house brands.

CHURCHILL

CHURCHILL – STUNNING CATERWARE THAT WORKS AS HARD AS YOU DO!

Within the hospitality/foodservice sector, the choice of tableware must meet the highest standards for presentation, practicality and performance. Over 200 years of innovation, passion and expertise make Churchill the natural partner for providing tabletop solutions. The Churchill brand (UK manufacture) has achieved global recognition and is a reputable supplier of the highest quality ceramics. Respected for service excellence, product quality, environmental responsibilities and product innovation.

- FULLY VITRIFIED:** One of the strongest ceramic bodies in the world
- GLAZED FOOT:** Smooth fully glazed footless dinner plates
- QUALITY SPECIFICATIONS:** Conforms to all international standards including BS 4034 and BS 6748
- HARDWEARING:** Specially developed glaze that protects against unsightly markings
- CHIP RESISTANT:** A reinforced “rolled edge” increases chip resistance
- STACKING ABILITY:** Up to 50% more plates per typical stack
- APPLIANCE SUITABILITY:** Super vitrified products are microwave, dishwasher and freezer safe

Luzerne

The Luzerne New Bone brand is global and is the result of a joint venture between one of Singapore's most established ceramic businesses and one of Japan's most revered names in ceramic manufacture. The Luzerne product is the embodiment of quality, style and refinement, gracing many upmarket and exclusive establishments around the world. Individual pieces are lightweight and translucent whilst offering the strength required of a genuine catering range.

FULLY VITRIFIED:	Low water absorption rates and excellent thermal shock resistance
SCRATCH RESISTANT:	Homogenous, tough glaze enhances resistance to scratching
HARDWEARING:	New bone is stronger and more durable than bone china
ENVIRONMENTALLY FRIENDLY:	Clay is derived from natural sources and does not contain any animal bone ash
HEAT RETENTIVE:	High firing temperatures provide excellent heat retention properties
APPLIANCE SUITABILITY:	Microwave and dishwasher safe

BDK-5416030 • FLY CANAPÉ TRAY 34 x 13cm

CUTLERY & SERVING UTENSILS

We offer a range of the finest cutlery shapes, from simple to ornate, traditional to contemporary, along with speciality items such as serving gear and steak knives. To address the full spectrum of the hospitality industry's requirements, cutlery is available in either 18/10 or 18/0 stainless steel. 18/10 is the more upmarket grade and it provides greater protection against corrosion, scratching and provides the silvery sheen.
